About Us

Naflin Company Limited is an auspicious business registered in Ghana. Experienced and dedicated professionals founded the firm in October 2011. Naflin Company provides specialised services to organisations of all nature and size, and is compliant with all local legislative requirements.

About Us

Our Vision

Our vision is to become Africa's premier firm by providing reliable engineering services.

Our Mission

Our mission is to improve the operational effectiveness and the competitive advantage of our clients by providing them with practical and innovative engineering solutions, and develop our employees professional advancement as well as enhance the return to our community and stakeholders.

Our Values

Our core values are:

- Professionalism
- Excellence
- Fairness
- Integrity
- Team Work
- Reliability

Our Symbol / Logo

Represents the Eternity Circle and means lasting business relationships for the mutual benefits of our Clients and Naflin Company. Our engagement creates value for our clients so they come back creating more business opportunities for the firm and the cycle continues.

About Us

Our Philosophy

At Naflin Company we operate on the philosophy of delighting our clients, by delivering superior value and exceeding the expectations of our clientele. To achieve this objective we relentlessly pursue professional and technical excellence, maintain high standards of service, and always bring the best team to deal with every single assignment. We are passionate about quality and doing our work right the first time. Thus, we provide uncompromised quality, since our reputation depends on our delivered value in the eyes of every client. At Naflin Company we understand our clients business needs and believe that our clients' success is vital to the success of our business.

Transparency, trust, and teamwork are the principal elements of our roadmap to excellent performance. Our utmost asset is a corporate culture that nurtures diversity of backgrounds, views, experience, and skills to create opportunities and capabilities. The firm further provides a suitable environment for the growth of employee potential. Naflin Company encourages the active involvement of employees in creating a healthy and friendly working environment. We further inspire employees to take personal responsibility for growth and professional development. We support our employees in a way that fosters learning, growth and recognition for excellent performance.

Naflin Company has integrated social and environmental concerns into its operations and its interactions with all stakeholders. Thus, in delivering our services, we ensure harmony with the environment and cordiality with all stakeholders.

Ethics

Our reputation with our clients and the trust they place in our services is critical to our business. Therefore, we strive to meet high ethical standards in handling the various business engagements, and all aspects of our work.

Our decision-making processes embrace a stringent adherence to universally accepted ethical values and abidance with local and international laws and statutes.

Enduring commitment to the highest professional ethical standards is deeply embedded in every professional conduct and business deed undertaken by all Naflin Company employees. Moral responsibility and accountability is the pillar of the firm's undertakings.

Our reputation, and the standards we adhere to are uncompromised.

About Us

Our Team

We have a team of highly qualified and experienced professionals with decades of combined experience in improving businesses. Our top-notch teams have proven problem solving, consulting and analytical skills.

Our experts are selected from a variety of organizational levels and industries. They know how to effectively focus on the most important areas of your company and work with you to accomplish your goals. Each professional has a high level of personal commitment to his or her work.

Along with this commitment comes a strong belief that the success of the clients' firm is key to the success of our business.

Our Business

Naflin Company Limited provides services in the following areas:

- **Electrical and Telecom Goods and Services**
- **Steel Products and Towers**
- **Solar Systems**
- **Engineering Supplies and Installations**
- **Civil Engineering Construction**
- **General Merchants**

This extensive scope of services is geared towards providing firms with quality Electrical and Telecom goods and services, and Civil Engineering Construction to enable efficient operations of their processes. Naflin Company helps firms in various sectors with quality, affordable and long-term cost saving solar energy systems for operational efficiency.

Electrical and Telecom Goods and Services

Naflin Company has combined years of experience with our partners in providing consulting and construction services for electric transmission lines, power generation facilities, transmission line engineering, substation engineering, structural engineering, and telecom infrastructure projects. Our partners have worked around the world on unique, challenging, and technically arduous projects. The firm provides a comprehensive range of professional engineering services to both the private and public sectors. The firm is recognised for its ability to approach projects with steadiness in design, reflective of a positive economic and community impact.

Naflin Company is proud of our resilient reputation in meeting aggressive schedules and the ability to assemble successful multi disciplinary project teams. Our cohesive teams of experienced personnel have a client-orientated attitude and a multi-disciplinary approach resulting in optimised performance in all aspects of engineering design, planning and construction services.

Our outstanding reputation is the result of our attentiveness to our clients' needs and the ability to provide solutions that exceed their expectations. Our strength is in collectively providing integrated services and delivering unsurpassed solutions to meet our clients' needs and requirements.

Steel Products and Towers

Steel Products/ Galvanised and Ungalvanised:

- Square Pipes
- Round Pipes
- Angle Irons
- Steel Plates
- Steel Accessories

Transmission Line Structures:

- 4 legged Lattice type Angular towers
- 4 legged Lattice type tubular towers
- Guyed Masts
- Narrow based Towers of Lattice angular
- Monopoles

Sub-Station Structures:

- 4 legged lattice type angular structures
- 4 legged lattice type tubular tower structures
- Pipe type structures
- H/I beam structures
- Lightning Masts

Telecom Towers:

- 4 legged Lattice type Angular towers
- 4 legged Lattice type tubular towers
- Guyed Masts
- Narrow based Towers of Lattice angular
- Monopoles
- Roof Top Poles
- Fiber Poles

(Light weight most suitable for roof tops)

- 3 legged Lattice type Angular towers
- 3 legged Lattice type tubular towers
- Hybrid Towers (3 and 4 legged)
- Rapid Deployment Units

Towers Suitable for TV Antennas and FM Radio Antennas

- Broadcast Tower
- TV Tower

Solar Systems

Reducing costs happens to be the primary mandate for virtually all firms. Further, firms demand constant electricity supply to facilitate their operations. At Naflin Company we know the pulls and pressures of your business in this regard, and we understand your needs for constant uninterrupted power supply. Thus, we offer firms complete solutions from the preliminary stages of project assessment, understanding requirements, to installation, and maintenance. With a one time initial investment, solar power brings the energy independence that continues to pay for itself with practically zero recurring cost a reality.

Naflin Company's international partners have developed an array of solar lighting, heating and power backup products that are reliable, and affordable. The products are tried, tested and trusted for years, and assure great value for money. They are engineered for efficiency and certified by ISO, the firm's range of products offers you the best of cutting-edge solar power technology. Power cuts, rising bills and, in some cases, no electricity whatsoever, are challenges most homes are facing from big cities to remote villages. Thus, the firm intends to make solar energy accessible to homes across the country. Our expertise lies in engineering solutions that are based on our in-depth knowledge and insight in solar energy systems and products.

- Installations of Solar Energy Systems
- Solar Off-Grid and On-Grid Power Systems
- Installations of Silent Power Backup Systems
- Repairs and Maintenance

Engineering Supplies and Installations

Transmission Lines:

- All Types Of Surveys, route alignment and tower spotting
- Road Making, Foundation and Tower Protections Works
- Tower Earthing
- Tower Erection
- Conductor Stringing
- OPGW and Earth Wire Stringing (including live line OPGW stringing)
- Final Checking

Sub-Stations:

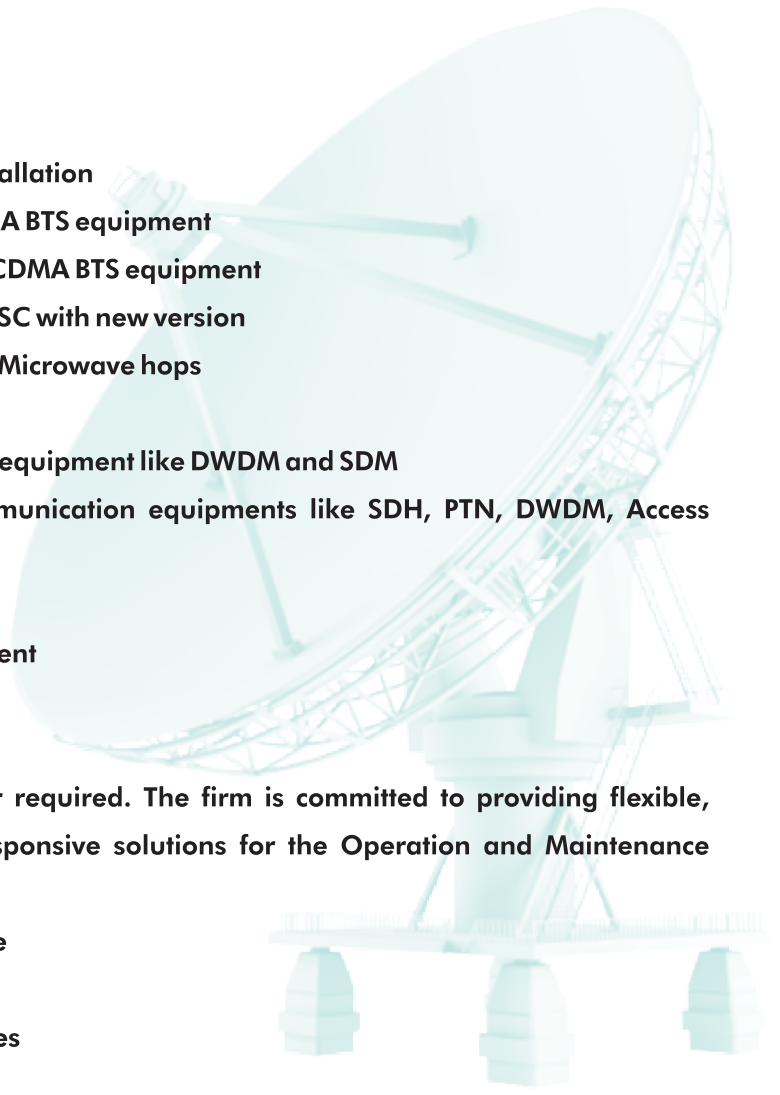

- Indoor switchgear installations
- Protection and Control Panel installations
- Telemetry and SCADA
- Outdoor switchgear installations
- Indoor Switchgear Installations
- Transformer installations
- Equipment installation
- Stringing of overhead conductors
- Cable Works i.e. terminations, jointing, cable laying
- Outdoor bus bar installations
- Steel support structures
- Civil works foundations, earthworks, storm water and drainage, yard stoning, kerbing, access roads, excavations, attenuation ponds, Building Works
- Testing and commissioning

Engineering Supplies and Installations

Telecom Infrastructure:

- Site survey (BTS / LOS survey/ IBS survey etc.)
- Foundation works
- Tower Erection works
- Power equipment installation and cabling installation
- Installation and commissioning of GSM / CDMA BTS equipment
- De-installation & de-commissioning of GSM/CDMA BTS equipment
- Swapping/upgrading the existing BTS/BSC/MSC with new version
- Installation, commissioning and alignment of Microwave hops
- Installation of MSC, BSC and STP equipment
- Installation & Commissioning of transmission equipment like DWDM and SDM
- Installation & Commissioning of data communication equipments like SDH, PTN, DWDM, Access network products, DLC, FSO, DSLAMs etc.
- Installation of Wi-Max and Wi-Fi equipment
- Installation and commissioning of IBS equipment
- Acceptance Testing of BTS / MW Equipment
- Man-power Outsource
- Operation and Maintenance of sites as per required. The firm is committed to providing flexible, integrated, dependable, cost effective and responsive solutions for the Operation and Maintenance requirements of telecom industry.
 - Passive Maintenance/Telecom Cell Site
 - Optical Fiber Cable Maintenance
 - Professional Services Managed Services

Civil Engineering Construction

Naflin Company is a highly focused firm specialising in all aspects of civil engineering. We provide our clients with full-service expertise from planning and design through construction, operation, maintenance and rehabilitation in the following areas: general construction, fabrication, and design-build. The firm has a global network of experts working with clients in the public, private, commercial, industrial, educational, and energy sectors, throughout the country. We assist corporate bodies, multinational organisations, and, municipal and public agencies to develop and implement innovative solutions and transformative outcomes to their complex civil engineering works. We connect people and economies with roads, bridges, tunnels, and, residential, commercial and industrial facilities. We design, build, operate and manage projects and programs that unlock opportunities, and improve various organisations and industries, and, communities and lives.

We take pride in our commitment to providing personal and professional services in a responsive manner with superior quality, and persistently strive to exceed our clients' expectations by providing innovative and economically astute solutions.

General Merchants

Naflin company has vast experience supplying a wide range of goods and services to various organisations in Ghana. We have successfully accomplished numerous big and small contracts for different organisations in the various sectors of the economy. The firm focuses on electrical and telecom goods, steel products, and construction materials. We are a multi diversified general merchants and represent top-notch firms in the international market.

Our reputation for consistently and reliably delivering results over the years is hard earned, which is underscored by the confidence of our clientele in our ability to deliver beyond their expectation. We guarantee quality products and services, and provide the best support available in the market.
